1000417 1000419 1010231 10035365

Piercing 85db horn sounds instantly in presence of smoke, **ionization** type alarms respond best to fast raging fires. **Photoelectric** types respond best to slow smoldering fires (40° to 100° F). All models come with UL, NFPA, Federal Housing Authority, Housing & Urban Development, CA State Fire Marshal guidelines.

NOTE: NFPA72 states that a smoke alarm installed within 20' of a cooking appliance shall have a photoelectric type smoke alarm or an alarm silencing means.

Interconnectable Alarm Accessories

Relay module used to activate auxiliary warning devices such as external sirens and bells, or to activate hallway lights. Hearing impaired strobe lights have 60 flashes per minute to provide a visual alarm.
