

General Purpose Coated Gloves

Zorbit® 4550 Sponge Nitrile

Zorb-IT's unique, sponge nitrile technology offers superior grip in oily or wet applications. What's more, Zorb-IT won't delaminate after only a few washes, standing up to repeated washings with no shrinkage.

***Made in the U.S.A.

Applications: Light Assembly, shipping & receiving, carpentry, general maintenance or any application where grip in oil is important.

HyFlex™ Foam

Hyflex gloves feature a knit nylon liner palm-coated with a thin layer of blended foam nitrile. For general assembly and handling small parts, Hyflex Foam provides your workers with the highest level of comfort and protection. The patented foam coating is resistant to snags and abrasions, and it provides excellent grip in light oil applications by channeling the oil away from the glove surface. Grey/White.

Applications: Wiring operations, Light assembly (especially where oil is present), Small parts handling, Shipping & Receiving, Finishing and inspection areas, Construction, Carpentry, cement finishing, drywall installation, equipment operations, general material handling and general labor. Outwears economy goatskin leather drivers by up to 50% and offers 30% more cut protection
