**Leightning® Ear Muff
Maximum Protection and Durability**

Designed to look and feel like expensive hi-fi headphones, Leightning muffs deliver the highest attenuation available and extraordinary comfort. The durable stress-resistant steel frame withstands the most demanding applications, while the foam headband pad and super-soft ear cushions deliver long-wearing comfort. The telescoping height adjustment feature allows a comfortable, proper fit on any size head. With three models to choose from, you can choose the attenuation level that's right for you.

Part No.	Model No.	Description	Pkg. Qty.	Case Qty.	NRR	Price /Each

**Thunder® Ear Muff
The Ultimate in Comfort and Protection**

Thunder muffs from Bilsom offer a high end protection combined with unmatched comfort features. The non-deforming comfort headband has a ventilated inner band and is designed to fit all head sizes. Quick click height adjustment allows a customized fit for any user. Super soft ear cushions cradle the head with soft comfort. Dielectric design is safe for use where electrical current is a concern. With multiple models to choose from, you can choose the attenuation that is right for you. Hygiene kits are available for all models.
