**Quantum's High Density Sliding Track System**

Quantum's modular, High Density Sliding Track System offers a unique way to maximize and increase your storage capacity. This patented design allows for quick and easy installation. Industrial bearings are located directly under each post for a maximum load capacity of over 1500 lbs. per unit. The low profile v-groove floor track allows all shelving units to glide effortlessly back and forth allowing accessibility from all sides. Layout assistance is available.

- Patented design
- Can increase existing storage capacity up to 150%
- Low construction cost
- Fastest installation
- Low shipping cost
- Utilizes the modular shelving super structure
- NSF approved
- Complies to ADA regulations
- Uses industrial bearings
- Easy to roll
- Corrosion free construction
- Wire shelving sold separately - Please contact your Fastenal Representative
