Sprayway #89 Fast Tack Specialty Adhesive

No. 89 is a pressure sensitive specialty adhesive used for lightweight repositionable bonding, ideal for use in arts & crafts, paste up, pelletizing and temporary signage.

Part No.	Vendor No.	Size	Pkg. Qty.	Case Qty.	Price /Each
0604426	89	13 oz. Aerosol	1	12	---

Sprayway® #55 Foam and Fabric Adhesive

Effectively bonds fabric to foam, metal, or wood surfaces, and to itself. It also bonds urethanes and latex-type foams to themselves in butt-splicing, knife edging, laminating, boxing, and edge turning operations as well as metal, rigid plastic, and wood surfaces. Offers quick tack and high coverage while providing a super strong bond. It does not darken, nor does it leave a residual odor.

Part No.	Vendor No.	Size	Pkg. Qty.	Case Qty.	Price /Each
0601157	55	13 oz. Aerosol	1	12	---

Sprayway #88 Multi-Purpose Spray Adhesive

It is a high solid industrial grade adhesive that is fast-drying, is heat and water-resistant, and provides either a temporary or permanent bond. Use to bond most lightweight materials including metal, foil, felt, fiberglass, insulation, flexible foam, plastic films, polystyrene foam, cardboard, and cork. Its long tack feature allows 30 minutes of open time so more parts can be sprayed before assembly.

Desiccants - Tyvek Bags

Desiccants provide maximum dryness during transportation and storage. Add to moisture barrier bags to absorb airborne moisture left inside the bag after vacuum sealing or moisture that manages to pass through the bag material. Packaged in either clean room compatible, sulphur-free tyvek or economical kraft paper. Meets requirements of EIA 583 and MIL-D-3464.
