

Dipped Glove- NITRILE Cont.

Hycron® Nitrile-Coated, Abrasion-Resistant for Heavy-Duty Applications

Hycron gloves are the perfect replacement for cotton and leather. Their extra-tough, heavy-duty nitrile coating gives excellent dry grip and superior service when handling rough, abrasive materials.

- Hycron gloves outwear heavy-duty leather-palm gloves 3 to 1
- Gloves provide excellent resistance to snags, punctures, abrasions, cuts, grease, and oil.
- Soft jersey lining eliminates seams from the working areas for greater comfort.

Hylite™ Ruggedness and Comfort for Medium-Duty Applications

Hylite combines the comfort of a cotton lining and the exceptional snag, puncture, abrasion, and cut resistance of a nitrile coating in a medium-duty glove. The glove is a better alternative to cotton, light- to medium-duty leather, and PVC. For extra comfort, Hylite features an interlock knit lining, generous sizing, and a contoured design. Hylite gloves outwear cotton up to 12 to 1, light leather 5 to 1, and PVC-coated gloves 3 to 1. Dark Blue.

HyFlex™ Foam Gray 11-801

Ansell's patented Knitted Variable Stitch Design provides exceptional comfort and outstanding wet/dry grip. The glove's design reduces hand fatigue and promotes maximum dexterity forming to the hand like a second skin - so workers don't have to take their gloves off to do their job. Offers ANSI Level 1 Cut Resistance.

HyFlex™ Foam 11-800

Hyflex gloves feature a knit nylon liner palm-coated with a thin layer of blended foam nitrile. For general assembly and handling small parts, Hyflex Foam provides your workers with the highest level of comfort and protection. The patented foam coating is resistant to snags and abrasions, and it provides excellent grip in light oil applications by channeling the oil away from the glove surface. Grey/White.

- Hycron gloves outwear heavy-duty leather-palm gloves 3 to 1
- Gloves provide excellent resistance to snags, punctures, abrasions, cuts, grease, and oil.
