

Flashlights Cont.

L4 1830 LED Flashlight

The L4 is a handy, unbelievably bright LED flashlight that's powered by 3 AAAA alkaline cells (included). The lightweight, slim profile design fits neatly in your pocket and comfortably in your hand. A tail button switch provides quick on/off or momentary activation. The clip is virtually unbreakable because it is molded to the Xenon body as one unit. And because it is molded out of polycarbonate resin, it won't cause sparks and is safe to use in electrical environments.

Part No.	Batteries Required	Battery Size	Lamp Type	Color	Lamp Output	Price
1013546	3	AAAA	LED	Yellow	8.0 Lumens	---
1013545	3	AAAA	LED	Black	8.0 Lumens	---

L1 1930

Water resistant. The L1 LED flashlight provides up to 50,000 hours of built tough light. The L1 uses 4 LR44 1.5V alkaline coin cells (included) for up to 130 hours of battery life. An extraordinarily bright concentrated beam is perfect where close-up light is needed. Convenient end switch for momentary blink or continuous light.

There is a handy break-a-way safety neck lanyard and pocket clip for additional attachments. Two night vision discs included.

- Class 1 Div 1 Rated
