3"	#3	29830

ITW Buildex TEKS® Round Washer Head - Phillips

Diameter - #8	
Length	Hex Part No.
1/2"	32014

ITW Buildex TEKS® Pancake Head Clip Screws For Metal Roofs

Low Profile Architectural Metal Roof Clip Fasteners & Rake Angle Shoulder Tek's

Incorporates the ITW exclusive Phillips Square-Drive® anti-cam-out system.

• Product Features:

- #12 diameter utilizes the ITW exclusive Phillips Square-Drive with patented interlocking components system. Excellent installation stability. Extended bit driver life. Keeps the driver securely mated to the fastener during installation. Hands-free installation

#10 Diameter uses the coated Phillips drive system providing improved driver bit to fastener stability and friction fit.

Both fasteners are finished with a corrosion resistant coating. Tek's 3 fasteners are available with Gray Spex™ coating; Type A fasteners with Climacoat®

Sharp convex drill point has precise cutting edges to improve drill performance with less effort.

Low profile pancake head style ensures proper installation of metal roof panels.
