LEAVE THE CUTTING TO US!

YOUR LOCAL STORE

We look forward to providing any material you require. We are also eager to demonstrate our unparalleled service, which has made Fastenal one of the leading Industrial Distribution companies today.

What does your metal and material usage really cost?

PRECISION CUTTING TO THE LENGTH YOU NEED

What is your total cost per piece of cut material? You will find that purchasing your material in pre-cut lengths from Fastenal will save you LABOR, machine time, material handling, saw blades and scrap. All you have to do is receive the product and send it right to production!

INVENTORY MANAGEMENT SOLUTIONS TO SAVE YOU TIME AND MONEY

Does your metals area look like...

Let us transform your metals area into this!

Hard to find the length and type of material you need?

Don't worry about meeting minimums, or buying more material than you need. You determine the materials, and lengths, that your company needs on hand. Fastenal will maintain those inventories so you are ready for the next job.

DELIVERY WHEN AND WHERE YOU NEED IT

Contractors save LABOR, time and overall job cost by utilizing Fastenal's cut-to-length metal offering. Order in either full length bars, or cut to the exact sizes for your job. Keep your people on task. There is no need to search for an electrical outlet, tear up your tools, run short of the needed materials, or deal with mis-cuts. **All of those savings...and delivery to your job site!**
