

FASTENAL[®]

COUNTRY OF ORIGIN COMPLIANCE SOLUTIONS

Need USA Manufactured or TAA Compliant Product? FASTENAL CAN HELP.

With the rise of global sourcing, exporting and federally funded projects, more companies are looking for country of origin information regarding the products we sell.

To meet this demand, we've developed a system that makes it easy for you (and your Fastenal representative) to search for USA Manufactured and Trade Agreement Act (TAA) compliant product within

our supply chain. These are the two most sought after areas of country of origin information we come across within the industries we serve.

We understand that every project is different, so please provide your local Fastenal store with any applicable FAR/DFAR clause or origin requirement so they can plan accordingly.

GOVERNMENT • FEDERAL PRIME CONTRACTORS • CONSTRUCTION • OIL & GAS • TRANSPORTATION • MUNICIPALITIES • POWER GENERATION

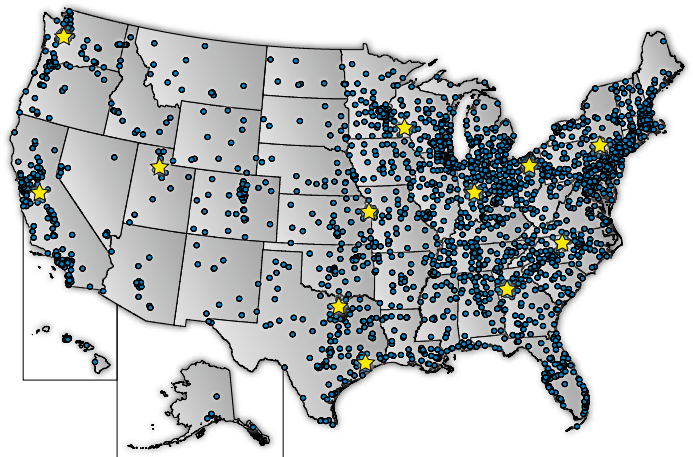

- Manufactured in the USA
- Easily identified parts that may qualify for applicable requirements under US Government FAR or DFAR clauses
- Certifications available upon request

- All products meet the Trade Agreements Act (TAA of 2012)
- Visit the Federal Acquisition Regulation (FAR) 52.225-5 for further details
- Certifications available upon request
