

# What Makes a Safety Cabinet Safe?

Sure-Grip® EX Safety Cabinets offer top performance for flammable liquid storage and protection.

## EXtra safe, EXtra sturdy, EXtra secure

Fusible links hold doors wide open and melt at 165°F (74°C) for automatic closure (on self-closing models).

Sturdy 18-gauge (1-mm) double wall steel construction with 1-1/2" (38-mm) of insulating air space.

Easy-close, self-latching doors; handle does not require manual rotation to engage mandatory three-point latch.

Fully welded, not riveted, construction holds squareness for longer life and offers greater protection in a fire since air gaps are reduced.

Continuous piano hinge provides smooth closure.

Durable and chemical-resistant, lead-free powder-coat paint finish, inside and out, retains high gloss look and minimises the effects of corrosion and humidity.

Dual vents with built-in flash arresters strategically placed at bottom and opposite top.

Self-indexing doors guarantee they will close in sequence and ensure a tight closure from top to bottom (on self-closing models).

Patented SpillSlope® safety shelves direct spills to back and bottom of leakproof sump. Adjustable on 3" (76-mm) centers, they meet ANSI standards with a 350-lb (159-kg) safe allowable load.

Welded shelf hangers interlock with shelf to offer maximum "nonslip" stability with no flimsy brackets to lose.

2" (51-mm) leakproof containment sump holds leaks.

894520 45-gallon (170-liter) self close door style

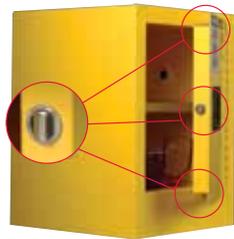

Adjustable leveling feet make it easy to balance cabinets on uneven surfaces.

Built-in earthing connector (on outside side panel) for easy earthing. Shown here with optional ground wire 08500.

Complies with OSHA 29 CFR 1910.106 and NFPA Code 30, section 4.3.3; FM Approved. Shelves meet ANSI MH28.1

Stainless steel, 3-point bullet self-latching system provides easy, fail-safe, positive door closure with increased heat resistance. **Patented**

Easily secure your contents—U-Loc™ handle includes double key set or can be padlocked (not included) for greater security. **Patent pending**

**Patented** SpillSlope® safety shelves direct spills to back and bottom of leakproof sump; adjust on 3" (76-mm) centers.

Welded construction holds squareness for long life; door astragal provides extra sturdiness.

Highly visible HazAlert™ reflective label provides warning—"Flammable – Keep Fire Away" in English, Spanish, and French. **Patent pending**
