

**Body Guard<sup>®</sup>**  
**SAFETY GEAR**

**ENGINEERED FOR SURVIVAL**

To Our Valued Customers,

Thank you for the opportunity to present our fast-growing lineup of BodyGuard safety gear!

As you look through this catalog, keep in mind that these products are manufactured by Fastenal's most trusted domestic and global suppliers- in many cases, alongside the iconic brand-name safety gear you've relied on for years.

The factories, testing, and quality of the products are all the same. The difference is that Fastenal owns the supply chain from the factory floor to your local store, enabling us to streamline steps, eliminate mark-ups, and pass the savings along to you.

If you're looking for high quality safety gear made by the most trusted manufacturers on earth, you'll find them here...and more importantly, at your local Fastenal store.

Thanks again for giving BodyGuard safety gear a closer look. We're confident that once you experience the quality, you'll want to make BodyGuard your safety gear for years to come.

# KNOW YOUR CUT PROTECTION!

## FEATURING DYNEEMA® AND KEVLAR®

Prior to making any product recommendations to determine how much cut protection is needed, consider these qualifying questions:

- Do you know the cut performance level needed?
- Is your cut performance level based on American National Standards Institute (ANSI/ISEA) CPPT test or Certified European (CE) EN388 test?
- Do you have a specific gram performance level?
- Do you have a fiber or material preference (Dyneema®, KEVLAR®, engineered yarn)?
- Do you have a polymer coating preference for grip requirements?
- Do you need liquid splash, full liquid or chemical protection?
- Do you need thermal protection? If so, what is the temperature range and time of exposure?
- Will gloves be laundered? With Bleach?
