

Hose Clamps, Gear Drive

The information below lists the required dimensional, chemical and physical characteristics of the products in this purchase order. If the order received does not meet these requirements, it may result in a supplier corrective action request, which could jeopardize your status as an approved vendor. Unless otherwise specified, all referenced consensus standards must be adhered to in their entirety.

30	2.38	1.38

10-14 in-lbs recommended installation torque

Specification Requirements:

- Band & Housing See dimensions above
Material: 201/301 Stainless Steel
Finish: Passivation per ASTM A380
- Screw Style 5 in accordance with SAE J1508
Material: Low Carbon
Finish: Fe/Zn 5A per ASTM F1941
- Product Marking: Size stamped on the band
- Performance Test: In accordance with SAE J1508
